ECCLESIA RE
REINSURANCE BROKER

Product information
REINSURANCE

HYBRID (RE)INSURANCE

We combine insurance and reinsurance capacity in one integrated placement strategy, working closely with your in-house broker or insurance department. This gives you a new leverage to optimize costs, develop your insurance program and secure the best possible options.

Hybrid placements

Additional (re-)insurance capacity
We organize new sources of (re)insurance capacity for you in all insurance lines and organize them to your advantage.

Customized solutions
Thinking outside the box - we think ahead for you and check the tailoring of any cover, ART models and/or risk bundling concepts.

Standardize coverages
Less side letters and vertical cover, through targeted allocation of reinsurance capacity and replacement of "problematic" direct insurers.

Harmonize pricing
Attractive prices due to increased competitive pressure and thus reduced vertical pricing.

Simplify administration
The number of direct insurers on your program can be reduced, thus simplifying administration on the contract as well as claims side.

Why Ecclesia Re?

Individual, customized solutions that focus on your needs

Global network of partners and capacity providers

High level of expertise – comprehensive market and industry know-how

High flexibility and innovation for a sustainable structure of risk transfer

The reinsurance broker of the Ecclesia Group at a glance

Ecclesia Reinsurance-Broker GmbH (for short: Ecclesia Re) is the reinsurance broker of the Ecclesia Group.

As a boutique reinsurance broker, we structure risks to suit individual circumstances by means of traditional and non-traditional capacities. We always provide the best recommendations for your particular situation.

We provide specific service solutions for a wide range of use cases. Originally, we were founded with the intention of being the "extended workbench" for our corporate group, in other words, to place and handle risks from and for the group on the reinsurance market.

We have since moved on to focus on facultative and obligatory reinsurance placements for European cedants along with the conceptual design and placement of structured risk transfer solutions for corporates, captives and traditional cedants.

Part of our DNA is to provide a competent consulting service that is tailored to the individual client's needs. The cornerstone of our services – in addition to our broad broking experience – is our strong analytical expertise in a multidisciplinary team.
