Glance at the global reinsurance sector

Individual consulting and broking as part of our DNA

Competent and focused on the client

Our qualified professionals provide you with access to all types of risk carriers – worldwide.

Our independent perspective ensures optimized risk transfer for clients and cedants.

As a boutique reinsurance broker, we structure risks to suit individual circumstances by using traditional and non-traditional capacities. You will always be provided with the best possible advice for your specific situation.

No ready-made schemes: we identify smart solutions for you that diverge from the beaten track.

Deductibles, sweet spot financing and risk transfer: We analyze and create alternatives so that you have options to choose from.

Self-insurance: We create captive protection models featuring a sustainable capital input (e. g. unique Pre-Captive Study for corporates).

Breathing space: We continuously review your coverage and deductibles so that you have more options for the development of your business.

Why Ecclesia Re?

A strong market position for your benefit: Group member of the largest German insurance broker and the second largest in continental Europe

Customized, market-leading solutions that focus only on your needs

Global network of capacity providers – tailored to your specific needs

The unique proximity to the primary insurance business creates solutions with added value for all partners
