The reinsurance broker of the Ecclesia Group at a glance

Ecclesia Reinsurance-Broker GmbH (for short: Ecclesia Re) is the reinsurance broker of the Ecclesia Group.

As a boutique reinsurance broker, we structure risks to suit individual circumstances by means of traditional and non-traditional capacities. We always provide the best recommendations for your particular situation.

We provide specific service solutions for a wide range of use cases. Originally, we were founded with the intention of being the "extended workbench" for our corporate group, in other words, to place and handle risks from and for the group on the reinsurance market.

We have since moved on to focus on facultative and obligatory reinsurance placements for European cedants along with the conceptual design and placement of structured risk transfer solutions for corporates, captives and traditional cedants.

Part of our DNA is to provide a competent consulting service that is tailored to the individual client's needs. The cornerstone of our services – in addition to our broad broking experience – is our strong analytical expertise in a multidisciplinary team.
